CITS3200 Group I
Minutes of the meeting held on 8th August, 2011

Topic	Client Meeting 1
Present	Rohit, Brian, John, Antriksh, Alwyn
Apologies	
Absent	-

1 Overview

- Object Oriented

- Flexibility over Speed

- "Engine" - Loads plugins

- Wants visualisation

- Serialise data out to file, visualisation is done by another app

- Sample algo (Separate app) - Pathfinding, best route to 'see' several towns

    - Start point, n towns on a grid, and an end point
    - Must get from start to end, in the shortest path, while going near each town
    - Different weights on shortest distance and closest visit, configurable

- Multithreading wanted

- Flexability, Neatness then Speed

- Engine as a lib, test app includes that
